

Stock Gobos

Many more to choose from

Custom Gobos

Use Gobo Patterns at Your Next Event!

Gobo patterns are used to project specific images, simulate scenery and add a new dimension to your event. A Custom Gobo is a custom cut piece of sheet metal or a multi colored glass lens designed to herald your image, logo, decoration or message onto any wall, floor or ceiling. We use Custom Gobos for various events to promote a specific theme, event, or celebration. Amos Productions can custom fabricate your own design... Any design. Simply send us your artwork or idea and we'll do the rest.

Choose from hundreds of stock gobos and/or get a custom gobo!
